

From warehousing and distribution to specialist crane equipped vehicles to meet your transport requirements

RT Keedwell Group

## Traditional Customer Service Values

Ray Keedwell established the business in 1969 with one truck, and a determination to work hard and invest his time and energy into growing the business.

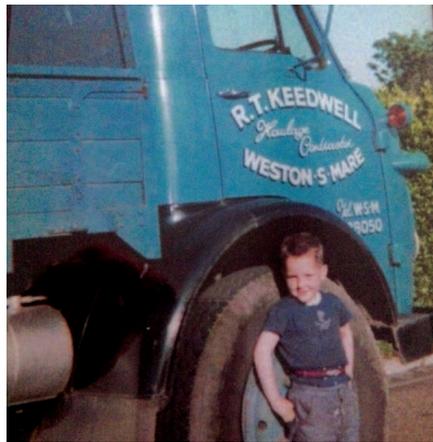

With acquisitions and developments along the way, the business has always held safety, reliability, customer service and a committed team as core values.

Since those early years, the business now managed by Stuart Keedwell and Jon White, continues to grow with the same level of determination, drive, focus and commitment.

### **A commitment to customer service**

With many long established customer relationships spanning decades, R.T. Keedwell is well placed to understand customer needs, providing workable solutions that deliver results.

Using leading industry software and technology, every aspect of customer service can be measured. Performance is dynamically reported

providing a seamless integration of information for customer visibility and efficiency.

Combine this with an experienced team who care about customer service, with an investment in new vehicles, depot infrastructure, technology and training, R.T. Keedwell offers a robust and reliable national transport solution.

## Services

With a considerable fleet size & extensive depot network, R.T. Keedwell is well positioned to provide a comprehensive range of transport services.

### General Haulage

From the company's inception in 1969, general haulage has been a central service offering, providing a quality solution with a responsive approach and outstanding safety record

### Regional Distribution, Groupage, Pallet Network, Warehousing

As the company has developed so has its range of services, which include regional distribution, warehousing & groupage, taking advantage of the R.T. Keedwell infrastructure of depots, fleet and technology.

As members of one of the UK's leading pallet networks, we provide all the benefits of a consolidation and trunk network to every UK and Irish

postcodes.

Full tracking and traceability, next day and timed deliveries are all part of the service.

### Workshops

R.T. Keedwell offers full servicing, MOT testing & repair facilities for commercial vehicles at its Highbridge depot in Somerset. It is a DVSA approved test facility.

# Sector Experience and Expertise

R.T. Keedwell provides transport & warehousing services across a number of sectors from steel and brick for the construction industry to food & drink, paper, timber, packaging, raw materials and FMCG.

The operation is backed with a significant investment in advanced transport management systems and telematics, providing the customer with a highly professional and efficient transport solution.

A continual investment in satellite tracked vehicles with geo-fence notification facility and direct customer interface for order input, status and KPI reporting, ensures that standards are constantly monitored and maintained.

## Construction

With many years of working for the construction industry, R.T. Keedwell has a highly skilled and knowledgeable team and a specialist fleet of crane mounted and mechanical off load vehicles.

## Paper and Timber

R.T. Keedwell has a substantial fleet of specialist combi trailers, to safely and securely transport jumbo reels, ensuring that they arrive in pristine condition.

## Food and Drink

Extensive food and drink transport experience spanning many years, has enabled

R.T. Keedwell to fully understand the pressures that seasonal peaks and short lead times have on the supply chain. R.T. Keedwell provides a fast response, total flexibility and supply chain visibility.

## Packaging and Raw Materials

With a fleet of 525 trucks, over 1,000 trailers, 11 depots, 250,000 sq ft of warehousing and the delivery of over 13,500 full trailer loads per month throughout the UK, R.T. Keedwell is exceptionally well positioned to meet the transport and storage demands for packaging and raw materials.

## FMCG

Recognising the importance of supply chain visibility to monitor and track in and outbound deliveries for fast moving consumer goods is understood and catered for by R.T.Keedwell. Customers have direct monitoring access, along with a full suite of performance and measurement reports.

# Read what our customers say about us

“ Godwins has used R T Keedwell as our primary haulier since 1973 and during that time we have had an excellent relationship with them through both good times and bad. For more than 40 years we have faced many challenges together as the economy, the market and the regulations affecting transport have changed over time.

In some ways we are a difficult customer for a haulage company as we have a low value bulky product that must nevertheless be handled carefully. Our business is also very seasonal, with 80% of our annual demand within the three month spring season and can be very responsive to weather conditions. Before a Bank Holiday Weekend the number of trailers that we require can triple with very little notice.

Despite all of these issues we have worked together to meet the demands of our customers and to minimise costs, and we have always received a high quality service. In view of this we would have no hesitation in recommending the Keedwell Group as a haulier. ”

Andrew Rowland  
Managing Director, Godwins

# Read what our customers say about us

“ UPM & Keedwell have worked together for over 10 years. In that time the relationship has developed from the more traditional supplier/customer interaction to one of genuine partnership, where both parties strive to generate shared cost & efficiency benefits.

This has coincided with a period when our customer base has become more demanding in terms of timed deliveries, reduced lead times & specialised equipment requirements. At the same time the paper industry has increasingly challenged existing load securing & health & safety practices, & UPM & Keedwell are proud to say that we were at the vanguard of this initiative in the UK.

By working together & understanding each other's needs, we have created a culture of mutual trust & common purpose across all levels of our respective organisations. ”

Jim Jack, Manager, Logistics Distribution. Supply Chain,  
UPM Paper ENA (Europe & North America)

“ R.T. Keedwell handles 100% of our transport requirement... we have been impressed with R.T. Keedwell's high levels of service and ability to respond quickly to peaks in demand at short notice. ”

Howard Sidney-Wilmot, Director,  
Stora Enso

“ By working together & understanding each other's needs, we have created a culture of mutual trust & common purpose across all levels of our respective organisations. ”

Jim Jack, Manager,  
Logistics Distribution

“ RT Keedwells have been our preferred haulage provider for the past 11 years, and we have a great working relationship with them which is based on mutual trust. ”

Ian Maynard,  
Operations Director, Deya Ltd

“ R T Keedwell Group continually provide me with a professional service at all times. Covering loads and meeting requirements is never an issue and they always find solutions to our needs or problems. ”

Karl Green, DS Smith
